Dear Hiring Manager,

I am writing to express my interest in the Frontend Developer position at your company. With 2 years and 6 months of experience in building scalable, user-focused web applications using React, Next.js, and TypeScript, I am excited about the opportunity to contribute to your team.

In my previous role as a Junior Frontend Developer at XENOptics Co., Ltd., I develop and maintain Network Management System (NMS) and Element Management System (EMS) applications. I design and implement responsive user interfaces and interactive visualizations for real-time monitoring systems, helping improve usability and performance. I also collaborate closely with backend engineers to integrate RESTful APIs and deliver reliable end-to-end features.

I am particularly interested in this opportunity because it aligns with my passion for building high-quality user experiences and continuously improving my technical skills. I am eager to bring my experience in modern frontend technologies, performance optimization, and clean architecture to your team.

Thank you for considering my application. I would welcome the opportunity to discuss how my skills and experience can contribute to your organization.

Sincerely,

Khin Su Wai (Erica)
